Subject: Whidbey Island Naval Air Station Environmental Meeting Request
Date: Saturday, November 02, 2019 6:56:11 PM

Misha....as a citizen of Washington State and a resident of Whidbey Island...I am formally requesting an Environmental Assessment of the PFAS/PFOA affluence being dumped into our streams, drainage systems and Puget Sound by the US Navy. We MUST protect our water ways and with ALL the knowledge the US military has on polluting lands, aquifers and waterways they should be held accountable to the citizens and communities they live in. Thank you for your attention to this matter. We ask the EPA to STAND TALL at this time in history and protect all of us. Respectfully, Kris Fellrath (b) (6)
